

Art Charts, Prints and Cards

from Astro Computing Services

The Magical Child Art Products

Here are the child-like versions of the twelve zodiac signs that Maria Kay Simms first drew as illustrations for her book *Your Magical Child*. Later the art in full color became an option for **Art Charts** through Astro's chart service, and Maria also adapted her book text for an interpreted report. Since then, the *Your Magical Child report* and **Art Chart** have become popular choices as gifts for new Moms.

Now, the **Art Chart** designs have become even more colorful, and we also have decorative **Art Prints** for a child's room, and colorful **Note Cards** that could accompany a baby gift, or might be used for thank you notes or a shower invitation.

Magical Child Art Charts or Art Prints are \$9.95 for the print only. Either chart or print can be ordered matted and ready to frame for \$24.95

Matted prints, with backing, come in a clear protective sleeve and fit into any standard 11" x 14" frame. Below are the chart centers for each sign. Outer rings are as shown above, each color coordinated to its center.

As you can see, liberties have been taken with some signs to increase their child-like appeal, and because Maria, in designing them, thought of each as potentially a soft toy or perhaps an "Astro-Pet." So, for example, instead of a Maiden, the Virgo "pet" became the Unicorn that, according to myth, comes tamely to a Virgin...or, in the poem, "comes tamely to the the Virgo born." Poems beneath each chart or picture explain the sign symbol.
