SPOTLIGHT ON YOU

Peeling The Onion

Learning astrology is a lot like peeling an onion: there is always another layer! What makes it so wonderful is that you can get as much (and as little) out of astrology as you wish. Even the outermost layer of astrology can provide important information about you and your life.

Planets, Signs, Houses and Aspects

You may have been introduced to the "Big Three" of astrology--your Sun, Moon and Ascendant--in "**Just a Taste**" of Your Horoscope or in basic textbooks. We come back to them here, to dig a little bit deeper. Remember, your Sun is a key to your self-esteem, where you want to shine, how you seek recognition, attention and positive feedback. The Sun symbolizes your basic vitality and creative spirit.

Let's look again at the meaning of the zodiac sign occupied by the Sun when you were born.

Your Sun is in Virgo: The Expert

You may shine through your work, health, good sense or ability to fix things, people and situations. You probably feel radiant and alive when improving, repairing, or finding flaws and fixing them. You can pour much energy into doing things right; you appreciate efficiency in the body and on the job. You may be proud of your competence and careful attention to detail. You are conscientious, well-organized, efficient and dedicated. You are pragmatic and helpful. You probably enjoy the roles of technician, analyst, efficiency expert, and server. Health and doing things well (a good craftsman) matter to you. You have common sense.

In addition to occupying a zodiac sign, the Sun occupies one of twelve houses in your horoscope. Houses are pie-shaped wedges in the circular horoscope, numbered one through twelve. They are calculated by dividing up the space around the Earth as it rotates on its axis in one 24-hour day. Thus, you can only know the house of your Sun if you know your time of birth. A brief summary of the meaning of your Sun's house appears below.

Your Sun is in the First House: Self-promotion

You need to shine for all that you are and everything you do. You have natural charisma, sparkle, zest and enthusiasm. You can lead and motivate others. You seek thrills and excitement. You want to be recognized as noteworthy and important.

Now, let's take a look at your Moon--your emotional base, your nurturing capacity, your home and where you look for security, safety and protection. We will interpret first the zodiac sign of your Moon. Then we will look (briefly) at the house occupied by your Moon.

Your Moon is in Leo: Attention-getter

You can be quite dramatic (even flamboyant), zestful, enthusiastic and fun-loving. Your emotional reactions are fiery, impressive and charismatic. You may be subject to mood swings (up/down), but are usually lively, extroverted, exuberant and magnetic. You want to be proud of your home, so could turn it into a showcase. You may play a lot at home, or fill it with exciting activities. You tend to nurture others through giving compliments, encouragement or motivation. You may be quite generous. Never having lost your inner child, you can share that youthful, playful spirit with others. You feel safest when gaining admiration, applause, attention and love.

Your Moon is in the Twelfth House: Sweet

You tend to be very sensitive, and may pick up moods and emotions from others. You can be too empathic and sometimes others play on your sympathies, taking advantage. You feel for the downtrodden and want to protect, assist and uplift others. You may be quite intuitive.

The first three building blocks of astrology are planets, signs and houses. The fourth building block of astrology is aspects. Aspects refer to the relationships between the planets. Certain angular separations (such as 90 degrees, 120 degrees, etc.) have meanings in astrology. This report will examine six of your aspects. (We have selected aspects which are most likely to be significant for you. More aspects exist--like more layers to the onion--if you want to study them in the future.)

The Moon is involved in the following aspect among your six most

significant:

Your Moon Makes an Aspect to Your Mars

You have an inner struggle between a desire to be free and a desire to be close, between asserting yourself and looking after others. You may feel torn between being open and spontaneous about your feelings versus holding back, holding in, and playing it safe. Your mother (figure) could have affected your ability to be independent and to handle anger. You are quite warm, can be an energetic caretaker, and generate emotional excitement. You can nurture yourself as well as others, feeding courage in all.

Finishing up "The Big Three" we consider the zodiac sign of your Ascendant and the aspects it forms that are among your six most important. The Ascendant does not occupy a house. It is a sensitive point which is the beginning of the first house of the horoscope, so no house interpretation will appear.

Your Ascendant is in Virgo: Doing It Right

Your personal style is very dedicated, helpful and hardworking. Your natural instinct is to look for the flaws and fix them! You can do this to objects, situations and people, but do it most often to yourself. You may have to learn to be **less** self-critical, to count your assets instead of your flaws. You are likely to be quite efficient, with good organizational skills. Usually modest, shy and somewhat reserved, you may not appreciate how hard you work and how much you assist others. You may be particularly talented in health areas or in any form of improvement or repairs. You can be quite practical.

Your Ascendant Makes an Aspect to Your Pluto

Your willpower is strong and you may have excellent powers of concentration. Able to focus, you instinctively probe for answers, digging beneath the surface and uncovering secrets and hidden matters. You may probe at your own psyche, always looking deeper within. Competitive, you have a drive for power which needs a constructive channel. You could have excellent stamina and good organizational skills. You seek an intense bond with another, but need someone who is as strong as you.

Your Ascendant Makes an Aspect to Your Neptune

You are apt to be quite sensitive and could be intuitive. Be cautious with drugs and alcohol as you might be physically sensitive as well. Idealistic and somewhat romantic, you can adopt rose-colored glasses and may be deceived, disillusioned or disappointed by life, especially in regard to relationships. Perfect partners don't exist, but sharing a dream or vision with others works well. Spiritual, idealistic or artistic activities revitalize you, as does contact with nature.

Personal Planets

Three planets have a lot to say about how you operate: Mercury (a key to your mind and communication skills), Venus (a key to love, affection and pleasure) and Mars (a key to assertion, energy and action). Here we will interpret Mercury, Venus and Mars by sign of the zodiac, by house, and by aspect (if any aspects to these personal planets are among the six most significant in your chart).

Your Mercury is in Libra: The Diplomat

You are a natural diplomat, with a knack for choosing the word or phrase that people wish to hear. You can be quite graceful and charming in your communication style. You may have a pleasant voice as well. An artistic eye is likely, and you could create beauty with your hands or through using flowing, lovely language (poetic). You may have quite a delicate touch. You are probably interested in relationships, love, beauty, harmony, the law and anything involving fair play and justice. Skilled at comparing and contrasting, you tend to balance opposites and are a good strategist and negotiator. You learn best in pleasant surroundings and can be a good team player. You're quite objective.

Your Mercury is in the First House: Talkative

Your first impulse is to think or to speak. You may speak quickly (sometimes impulsively). Alert and active, you respond well to crises and can think on your feet. Restless, you need variety and mental stimulation. You can be quite direct and open.

Your Venus is in Leo: Exciting Love

You enjoy excitement, drama, creativity, attention, applause and love. You seek a partnership which is full of zest, enthusiasm, thrills and the

rush of adrenaline. You attract love by being generous, fun-loving, exuberant and expressive. You show affection wholeheartedly, extravagantly, and passionately. You can be quite charismatic and sexy. Your sensual nature is strong. You enjoy giving and getting compliments with those you love.

Your Venus is in the Twelfth House: Inspired Love

You enjoy art, beauty, nature, mystical experiences and compassionate activities. You may have strong aesthetic talent. You prefer a partner who is sensitive, cares about the less fortunate, is idealistic or artistic. You might sacrifice too much for love; keep a balance.

Your Venus Makes an Aspect to Your Neptune

You have a strong sense of beauty and may well have artistic talent. Possibilities include (but are not limited to) painting, design, photography, dancing, music, singing, weaving, pottery, poetry, films, landscape gardening, decorating, and more. You could have an eye for color, grace and form. You might be quite attractive, with a natural grace. You prefer the "easy" way and could be too passive (or evasive) sometimes--trying to avoid anything unpleasant. You are looking for the ideal love, wanting to find a perfect partner.

Your Venus Makes an Aspect to Your Mars

Sex appeal may ooze out of your pores. You are very sensitive to the dance between self and other, particularly male and female. You are working on the balance between personal and interpersonal desires. You might enjoy asserting yourself and still get great pleasure from sharing with another and compromising for the sake of a partner. You could put beauty into motion (e.g., dancing, skating, skiing, etc.). You have a strong sensual streak and may really enjoy physical pleasures.

Your Mars is in Libra: Beauty and Balance

Your basic instinct is to be with others. You can be quite sociable, charming, courtly and civilized. You can also be indecisive or competitive. Sometimes, you cover anger with smiles rather than directly confronting issues. You are most apt to get angry over issues involving partners or questions of justice, balance and fair play. You can put a lot of energy into relationships, creating beauty, achieving fairness, and adjusting injustices. Beauty and grace stimulate your sexual drive. You can be quite loving and helpful.

Your Mars is in the Second House: Endurance

You prefer financial independence, so will usually put much energy into earning some of your own income. You can, however, spend on impulse. You may be very active in pursuit of pleasure, material comforts, possessions, or beauty. You are quite sensual.

The Outer Planets

Beyond Mars lie Jupiter, Saturn, Uranus, Neptune and Pluto--the outer planets of astrology. Because their orbits are so long, they may spend a year or more in the same sign. So, you will share the meaning of these sign placements with people who are around your age group. House meanings, however, are much more relevant for you individually, as they change every few hours. If any aspects are listed here, it is because they were among your most significant ones.

We look first at Jupiter, the largest planet, which is a symbol of expansion, growth, opportunity and your desire for more. Jupiter is a key to your ideals, ethics and where you look for meaning in life.

Your Jupiter is in Capricorn: More Responsible

12/02/1936-12/20/1937; 11/15/1948-04/12/1949; 06/27/1949-11/30/1949
03/01/1960-06/10/1960; 10/26/1960-03/15/1961; 08/12/1961-11/04/1961

You value success, career accomplishments, and executive power. You are likely to believe in hard work, responsibility, and getting to the top a step at a time. You may appear very authoritative (or dominating) to others. You might idealize the Establishment or people in powerful positions. You could be fortunate in your profession. You can grow through effort and steady, disciplined progress.

Your Jupiter is in the Fifth House: More Romance

You believe in love! You may idealize loved ones (including children) and see only their best potential--or expect more than is possible from them. You can be a great entertainer and may enjoy sports and games. You probably have promotional, advertising or persuasive talents.

Your Jupiter Makes an Aspect to Your Saturn

You can combine the spirit and the letter of the law: ethical and moral principles blended with duty, responsibility and conscientiousness. Your idealism and sense of meaning and purpose are backed up by hard work, effort and practicality. You might make dreams into reality. (Sometimes, you can end up with dashed dreams if you demand too much of yourself, others, or life.) You have the ability to combine confidence, enthusiasm and a nose for opportunity with competence, focus and solid achievements.

Next is Saturn, with its highly visible rings, symbolizing the natural limits and laws of life. There are certain things we can do, some we cannot do and some we must do. Saturn is a key to your sense of responsibility, and how you handle duties, rules and necessities in life.

Your Saturn is in Capricorn: Conscientious Responsibility

03/15/1929-05/05/1929; 11/30/1929-02/24/1932; 08/13/1932-11/20/1932
01/05/1959-01/03/1962; 02/13/1988-06/10/1988; 11/12/1988-02/06/1991

You must take responsibility for your urge to structure, control and be in charge. This means avoiding the extremes of (1) feeling the power structure will block everything you do, or (2) feeling you have to maintain total control in order to be safe. You need a career, a place to be the expert, the authority, the person running the show. Careful planning in terms of status, profession and the rules of the game pays off in the end.

Your Saturn is in the Fifth House: Controlled Creativity

You tend to take love relationships and children seriously, so might delay or inhibit rather than risking a mistake. You might be ultra responsible with loved ones, so can sometimes work too hard for them or demand a lot. You are probably much more creative than you credit yourself.

Then we reach Uranus--which has a strange tilt to it and almost rolls along on its side. Uranus is a rebel within the solar system and symbolizes your urge to be unique, to change, to reform, to break the rules and to be different. Uranus is a key to your inventive spirit and where you may do your own thing.

Your Uranus is in Leo: Changing Thrills

08/24/1955-01/28/1956; 06/10/1956-11/01/1961; 01/10/1962-08/10/1962

You may be unique in your creativity, handling of love relationships or willingness to take risks. You could be quite inventive and original. When you break loose, it is dramatically. You need freedom of expression. You meet challenges with zest, enthusiasm, excitement and confidence.

Your Uranus is in the Twelfth House: Changing Faiths

You might be quite intuitive. You are likely to have a unique viewpoint on the meaning of life. You may demonstrate compassion in unusual ways or have a progressive, avant-garde approach to beauty and art. You may idealize freedom and seek to bring equality to all.

Neptune was the god of the seas in ancient times and symbolizes mystery, illusions, dreams and fantasy. Neptune is a key to your imagination, your idealistic nature, your sympathies, compassion and where you look for something higher and inspirational in life.

Your Neptune is in Scorpio: Powerful Dreams

12/24/1955-03/12/1956; 10/19/1956-06/15/1957; 08/06/1957-01/04/1970
05/03/1970-11/06/1970

You may idealize sex, intimacy, a partner or psychological understanding. You could seek a soul mate. You might be disillusioned about therapy, sexual pleasure, abuse of power or inequality of shared resources. You could be drawn toward beauty or art which arouses strong emotions. You gain inspiration through intuition, an intense emotional focus, or a deep probing look at hidden matters.

Your Neptune is in the Third House: Imagery

You have quite a creative imagination and may create beauty through words (poetry, singing, songwriting or graceful language). You could pick up accents or foreign languages easily. You are sensitive to what is implied as well as what is said. You understand feelings well.

Pluto was the god of the underworld in ancient times and symbolizes deep desires, intense passions and hidden things. Pluto is a key to your urge for power, control and mastery, your yearning for an intimate, sexual connection with another, and your ability to confront the dark side of life, transforming negatives into positives.

Your Pluto is in Virgo: Controlled Dedication

10/20/1956-01/15/1957; 08/19/1957-04/11/1958; 06/10/1958-10/05/1971
04/17/1972-07/30/1972

You may totally concentrate on your work or health, seeking a complete understanding. You could transform your physical body or the job you hold. You might be intensely passionate around issues of efficiency, productivity and health. You may be good with details.

Your Pluto is in the Twelfth House: Imaginative Control

You may be quite intuitive. You are likely to have strong interests in spiritual, artistic, or philanthropic areas. You may be drawn to drugs, alcohol or other challenges to appetite mastery. You can turn negatives into positives--in your life and the lives of others.

Astrology is Repetitive

Remember that needs and drives which are central in your nature will be repeated in your horoscope. So pay the most attention to any ideas which came up more than once in this report.

One way themes are repeated in a horoscope is by having three or more planets in the same sign or in the same house. When this happens it is called a **stellium**. You have the Moon, Venus and Uranus in the sign of Leo, so it is liable to be more prominent in your nature:

Excitement draws you; you seek that adrenaline high. You may look to physically risky activities such as motorcycling or taking chances financially through speculation and gambling. With an urge to pour out from your own center, doing more than has been done before, you can be highly creative in many areas. Positive feedback (love, admiration, attention, applause) is important to you. Sometimes, you may decline to try things because you fear being laughed at and cannot stand losing. A natural leader, you would prefer to be onstage, swaying people emotionally--as long as you are assured of a positive response.

Spotlight On You Chloe Armand San Diego, CA

You have the Sun, Pluto and the Ascendant in the sign of Virgo, so it is liable to be more prominent in your nature:

Health and/or work are important focuses for you. You may combine them in fields of nutrition, medicine, holistic health or even professional hypochondria. You have marvelous abilities to analyze, discriminate and find the flaws. This can make you a super employee, a marvelously productive person or a critical pain in the neck, depending on where you channel your desire to improve life and make it more efficient. You are likely to have skills at handling details and be generally helpful.

You have the Moon, Venus, Uranus and Pluto in the 12th, so the nature of that house is liable to be more noticeable in your character:

Your faith in life is crucial here. If you trust in yourself and a Higher Power, you are likely to be extremely effective, living out most of your potential. If you are trying to carry the whole load yourself (playing God) or expecting others to make everything perfect for you, disillusionment and disappointment lie ahead. Beauty and spiritual, idealistic or religious activities offer support.

Another way in which repeated themes can be indicated is all the two-way combinations in your horoscope: planet in sign, planet in house, planet to planet aspects, etc. In the following paragraphs, references to letters mean the 12 "letters" of the astrological alphabet. Letter 1 is Mars/Aries/1st house, letter 2 is Venus/Taurus/2nd house, letter 3 is Mercury/Gemini/3rd house, letter 4 is Moon/Cancer/4th house, etc. The placements and rulerships and aspects in your chart are weighted, and the letters or letter pairs with the most significance are chosen. The **annotation** shows what factors contributed to the choice of each paragraph. What follows are themes emphasized by the blends in your horoscope.

3-12: Ultimate Absorption

This combination suggests the need to integrate logic/contrasts/people near at hand/communication with compassion/union/the Universe/infinite

ideals.

A strong creative imagination is likely, and you may be talented in writing, fantasy, flowing language or making lovely objects. Mental/communication skills are probable and you may have a flair for languages or a real gift for mimicry. You could easily try to absorb all the knowledge in the universe, leading to being scattered, confused or overloaded in your thinking. You can't talk to the people right around you on the same channel that you talk to God. A relative may have offered a role model (positive or negative) for the search for infinite love and beauty. This can range from the inspired artist, the martyred helper, burned-out or disillusioned victim, to the constructive healer, etc. You are likely to have a wide array of interests and could overextend, so keep clear standards about what is essential for you to learn, and what can be ignored.

5-12: Magician

♁ in 12th, 5th HS ♃♁☉ Rof 12th, ☉♁♁ in 12th, 12th HS ♃♁♀ in ♁, 12th HS ♁♁♃ in ♁, ♁♁♃ in ♁, ♁♁♀ in ♁, 5th HS ♃♁♁ in 12th, 5th HS ♃♁♁ in 12th, 5th HS ♃♁♁ in 12th, 12th HS ♁♁♃ Rof 5th, 5th HS ♃♁♁ in 12th, 12th HS ♁♁♃ Rof 5th, 5th HS ♃♁♁ in 12th, 12th HS ♁♁♃ Rof 5th, 12th HS ♁♁♁ in ♁, 12th HS ♁♁♁ in ♁, ☉/♁♁♁, ☉/♁♁♁, ☉/♁♁♁, ☉/♁♁♁

This combination seeks to mix self-esteem/pride/speculation/excitement with selflessness/Union/unconscious faith/magic.

This combination often highlights dramatic talent--the ability to almost "cast a spell" on your audience. You may have natural persuasive abilities (a real spellbinder) with talent for sales, acting, entertainment, promotion, teaching, film work, advertising, politics, comedy, (or martyrdom and hysteria). Artistic creativity is possible. Another option is preferring recreation which involves an element of magic, illusion, fantasy or imagination (films, romance, fiction, etc.). You can be an extremely skilled host or hostess, creating fascinating, scintillating performances and ideal party environments. Or, you may avoid the limelight unless you're sure you've arranged everything perfectly. Your solitude needs compete with the drive to be a star; finding a compromise could be a challenge. High expectations are likely in love relationships. This can range from being "in love with love" and seduced or abandoned; to avoiding love affairs or having children if you can't do it "perfectly"; to idealizing those you love and seeing only the best in them. You are likely to put a high value on love (and possibly sex). Children, creativity, recreation, speculation, gambling, or any form of risk-taking for greater gain could also be idealized. Sometimes you might prefer to live with your imagination or fantasies rather than dealing with the ordinary

drudgery of life. If these themes are not integrated, you and lovers/ children could take turns playing the dramatic martyr, the hypochondriac or other escapist roles. When balanced, love relationships are likely to be intense, emotional, enthralling and exciting. You encourage the people you love to reach their highest potential. You raise love to the nth degree.

2-3: Comfortable Communication

2nd Rby ♀*♂ Cof 3rd, ♀*♂ Cof 3rd, ♀□♂ in 3rd, 3rd HS ♀□♀ Rof 2nd, 2nd HS ♂△MC in ♀, ♀/♀♂, ♀/♀□MC, ♀/♂△♀, ♀/♂△♀, ♀/♂△♀

This combination ties together pleasure/sensuality/beauty/possessions/money with communication/thinking/versatility/relatives/dexterity.

You may find pleasure in thinking, learning, and talking--or wish to learn and communicate only when it is comfortable and easy. You might create beauty in language (e.g., poetry, flowing prose, song-writing or composing). You could enjoy relatives or interactions with people near at hand. You might be interested in, and like to discuss, finances, possessions, artistic endeavors or sensual gratifications. You might make money through your mind, tongue or hands, or spend money on learning or communication tools and toys. Another option is money dealings with relatives. You are able to be casual, comfortable and relaxed, so most people find you easy to relate to.

3-10: Rational

MC in ♀, ♀ in 10th, ♀△♂ in ♀, ♀△MC, ♀MC△♀ Rof 10th, MC△♂ Cof 3rd, ♀♂♂ Cof 3rd, ♀♂♂ Rof 3rd, ♀♂♂ Rof 3rd, ♀♂♂MC in ♀, ♀♂MC in ♀, MC△♂ in 3rd, MC□♂ Rof 3rd, ♀/♂△♀, ♀/♀□MC, ♀/♂△♂, ♀/♂△MC, ♀/♂□♂, ♀/♀♂♂, ♀/♂□♂

This combination seeks to mix versatility/curiosity/communication/people near at hand with limits/duties/profession/power.

You have the potential for both mental quickness and perseverance, but may feel an inner conflict between a light-hearted approach and a more serious attitude; between being flippant versus being committed. This could lead to being a somewhat casual and accepting authority figure, but following rules, roles and regulations in informal social interactions. You could easily work with the intellect, but this pragmatic focus might be overdone into criticism (of thoughts or speech--yours or other people's), limitation, or inhibition of your mental assets. Rationality is a likely style for your thinking and communicating--a logical fact-finding and summing-up of information. You mind (or dexterity or relatives or

transportation) may be an important part of your profession.

4-5: Family Focus

This combination ties together emotional security needs/sensitivity/ rootedness/nesting urges and creative needs/love/generosity/ego expansion.

You may exhibit incredible warmth, natural nurturance, and a great capacity to love and be loved. You are likely to have a strong desire for home, family, and emotional attachments. Caring is accentuated in this combination. Feelings may tend to win over logic, but there is a push/pull between protective silence (for the sake of your feelings or the feelings of others) versus extroversion and moving into center stage. You need to be able to pour out as well as to explore within. Love relationships are likely to be a major focus in your life, especially children. Your creative efforts may center around home, family and loved ones and you could retain a childlike freshness and fun-lovingness that is a joy to share. Your ability to sway people emotionally could also be valuable in promotional fields. Strong love bonds are likely.

2-12: Make It Nice

♀ in 12th, 2nd Rby ♀ in 12th, ♀♂♂ in 12th, 12th HS ♃♂♂ Rof 2nd, 12th HS ♃♂♂ in 2nd, 12th HS ♀♂♂ in 2nd, ♀♂♂, ♂♂♂ Rof 2nd, 2nd HS ♂♂♂ in 12th, 2nd HS ♂♂♂ in 12th, ♀/♂♂♂

This combination joins ease/tangible beauty/finances/sensuality with imagination/inspiration/Unity/idealism.

You are likely to have a strong aesthetic sense, and may have talent for creating beauty in any form. You can tune into the infinite, and bring an inspired vision down to earth to share with others. You may be able to create beauty and pleasure from all the senses. Your creative imagination might bring in revenues, or psychic insights, or an intuitive sense of patterns could contribute financially. Another possibility is idealizing gratification, in which case indulgence might be overdone or money seen as an ultimate value. Smoothness and harmony are usually preferred, so being too relaxed and passive is possible, as well as avoiding or denying unpleasantness. Generally, the focus is toward grace, beauty, comfort,

pleasure and ease.

5-6: Enduring Enterprise

This combination ties together self-esteem/creativity/love/drama and service/pragmatism/attention to details/humility.

Your self-esteem may be connected to your work accomplishments or physical functioning. You are potentially very competent, with lots of vitality and confidence for doing a **good** job, but need to work at something where you can shine, be recognized, be admired or receive attention. You probably feel more vital and alive when being productive and effective. Working with loved ones (including children) is another option, or in fields emphasizing creativity, speculation, leadership or dramatic instincts. If your work or **good** health does not satisfy your need for significance, there is the danger of unconsciously using illness to gain attention. Alternately, you might apply the flaw-finding lens (which is useful on the job) toward your own personality (overdoing self-criticism) or be too judgmental of lovers and/or children. The positive blend of these two themes indicates a go-getter--potentially very dynamic, productive and successful, combining tremendous confidence and enthusiasm with great practicality.

6-12: Doing Dreams

This combination points to a natural polarity and the need to blend common sense/effort/details/service with idealism/submission/the Whole/infinite love and beauty.

You are learning to balance the search for a beautiful dream with a pragmatic assessment of the physical world. Inspiration and perspiration pull together for best results. There is the potential of idealization of work. This might indicate searching for the perfect job (ideal hours, pay, etc.), wanting to do your work perfectly, looking for the universe to do the work,

wanting your work to make a more perfect (or more beautiful world) or considering doing a **good** job your highest ideal (really believing in the work ethic). Both imaginative and rational, you can combine intuitive and logical thinking for best results. However, you may sometimes feel torn between your desire to fantasize and your need to get tangible results in the world. Keep room for both functionality and beauty in your life. This is a common polarity for artists and craftspeople of all kinds as well as helpers and healers.

3-5: Humorous

This combination joins lightheartedness/language/thinking/curiosity to joy/drama/ego expansion/risk-taking.

This suggests you can be a vibrant, magnetic, entertaining conversationalist and bon vivant. You may have a childlike freshness to your thinking, with an instinct for dramatic communication which stirs people's emotions. Sales and promotional talents are likely. You can also teach with charisma and flair. Children and lovers are connected to the mind, so you may enjoy sharing ideas, playing games or verbally stimulating one another. If you are out of touch with your intellectual, detached side, you might attract lovers or children who overdo lighthearted curiosity or casual detachment. You need to shine through your mind, gaining positive recognition for your thinking or communication skills. Gifted with a keen sense of humor, one of your contributions can be helping other people to laugh.

Themes of excitement, drama, risking for positive response, creativity, love, and attention are in high focus.

You need an adrenaline rush in your life! You may be drawn toward speculative avenues: playing the market (hoping to make money), selling or advertising (hoping people will buy) or gambling. You may pour out emotionally in other ways, hoping for a response from the world: the

actor/actress on stage (wanting applause); the teacher in front of the class (wanting attention); the promoter (wanting to persuade others); the lover (wanting love in return). At times, you might be too ego-vulnerable, needing the good opinion of others more than is perhaps healthy. Inner appreciation is vital. You need a forum to develop positive self-esteem. You could be quite creative ranging from the artist who brings more beauty into the world to the parent who brings children into the world, hoping for love and positive regard. Feedback is as essential as air for you; you need to feel appreciated, admired, applauded, recognized. If personal pride (and arrogance) are carried too far, you could be egotistical and pompous. With balance, you can be quite charismatic, dramatic, generous, expressive, dynamic, and exciting.

Themes of cosmic consciousness, infinite love and beauty, compassion, rose-colored glasses, escapism, and imagination are highlighted.

Your quest for a dream is vital in your life. This could lead you to appreciate and create beauty in almost any form (including--but not limited to) films, painting, dance, music, etc. You might become a helper or healer (doctor, therapist, astrologer, counselor, etc.). You could direct much compassion into philanthropy or a sympathetic ear when anyone around you needs it. In extremes, this can lead to savior/victim relationships (with drug addicts, alcoholics, or other "needy" people) who activate your desire to rescue. Keep such associations professional--with office hours! Alternately, if the world seems **too** ugly, and you feel unable to change it for the better, you may be tempted to escape--through alcohol, daydreaming, tv, romantic fiction, etc. This is a problem if overdone. Sensitive, intuitive, imaginative, you can tune into a reality Higher and more beautiful than the one in which we live. You may bring magic into people's lives. Your idealism can help to make the world better (and/or) more beautiful.

This combination seeks to mix love/drama/excitement/self-esteem with work/reality/pragmatism/authority issues.

You may possess a drive for power, but feel torn between power as a source of joy, versus power as a responsibility; between zestful pursuit of control, versus dominance as a necessary, unenviable role. You are trying to make a comfortable blend between love needs and achievement needs; between fun and practicality; between excitement and playing it safe. A drive toward leadership is likely, but you may swing from carefully working your way up the ladder, versus feeling you should be at the top already. You need to be able to share the duties and discipline with those you love. Otherwise, either you or your children/lover could overdo the need for dominance or the sense of responsibility and seriousness, and turn loving into "work." Your creative talents could contribute to your career achievements--in teaching, persuasion, public relations, investing, recreation or any areas which put you front and center, making your mark.

More Layers?

If you are ready to look more deeply into your own nature, we would suggest you try either the **Planetary Profile** or **Your Astro Analysis**. The Planetary Profile is a synthesized report which brings together many different pieces of the horoscope to present an integrated analysis of various areas of your life: your basic identity, your career potentials, your relationships, money, communication, parents, children and creativity, beliefs and values and more. Your Astro Analysis is preferred by people who wish to learn the "nuts and bolts" of astrology. In it, each piece of your horoscope is interpreted, one at a time. (For example, your Sun's sign, then house, then each aspect is explained.) Your Astro Analysis would be like an expanded version of this report (Spotlight On You).

Perhaps, however, you are ready to **look ahead!** If so, we suggest **Your Future: Outer Planet Transits**. This report takes a look at how you can make the most of your future possibilities. It analyzes the aspects made by the outer planets (now and in future months) to the planets in your birth horoscope. Using the slower moving outer planets shows the major trends you will likely experience in your life.
